### The Missing Necklace

It was almost midnight when Officer Ben arrived at the old house in the middle of the town. Mrs. White, a worried mother, was waiting at the door. Her daughter had been in her room, and the family's gold necklace had suddenly gone missing.

Inside the living room sat two people — Leo, the driver, and Mia, the housekeeper. Both looked nervous.

"I only went to the kitchen," Mia said. "When I came back, the necklace was gone."

"That is not true. I saw you walking near the bedroom." Leo frowned.

Officer Ben looked around the room. The window was half open, and the curtains moved in the wind. He saw a muddy footprint on the floor. It did not match Leo's or Mia's shoes.

Mrs. White said softly, "Please, officer, I just want to know who took it."

Officer Ben picked up the necklace box from the floor. It was empty but very clean. He looked at the two suspects.

"Someone here knows more than they say," he said quietly.

Then the lights flickered, and a car engine started outside. When Officer Ben turned to the window, both Leo and Mia were gone.

#### **Why We Should Drink Water Every Day**

Water is one of the most important things for life. Every part of the human body needs it. About 70% of our body is made of water. It helps us stay cool, clean our blood, and move nutrients around. When we do sports or spend time under the sun, we lose water through sweat. If we do not drink enough, we can feel tired, dizzy, or even sick. Doctors say that people should drink six to eight glasses of water each day. Some people think soft drinks or juice can replace water, but they cannot. Water has no sugar and keeps the body healthy. Drinking clean water every day is one of the easiest ways to take care of ourselves.

38. What does the article say about water in our bodies?
1. It stays only in our blood.
  2. It only helps us during sports.
  3. It is less important than food.
  4. It makes up most of our body.
39. What happens if we do not drink enough water?
1. We feel strong and happy.
  2. We may feel tired or dizzy.
  3. We become faster at sports.
  4. We get more energy from sugar.
40. From the passage, why can soft drinks not replace water?
1. They are too cold.
  2. They contain sugar.
  3. They have no flavor.
  4. They are more expensive.
